OVERVIEW

CENTER OF ENGINEERING & MANUFACTURING EXCELLENCE

Brenton is committed to improving and expanding packaging technologies for use in simple to very complex case packing, shrink wrapping, palletizing, and robotic applications. Highly experienced Brenton engineers and craftsmen build packaging machinery known for durability, reliability, flexibility, and speed.

We are a leader in servo technology applications and offer end-of-line system integration to successfully synchronize the operation of various types of machinery along the line. Brenton is one of the largest

providers of Fanuc robotic packaging systems in North America. As a FANUC Robotics Certified Servicing Integrator (CSI) & Strategic Market Specialist, Brenton is recognized by FANUC as having unique expertise in applying FANUC robots in various secondary packaging operations.

All machines systems are designed and manufactured at our 150,000+ square feet state-of-the-art facilities in Minnesota. Onsite manufacturing capabilities include electrical, machine, and fabrication shops, powder coating booth, water-jet cutter.

Packaging machines and robotics built by Brenton can be found throughout the United States, as well as around the world. Brenton stands behind all their machines with a 20-year tradition of innovation, experience and industry leading customer service and support. Setting Brenton apart from others in the industry is the unsurpassed capability to successfully integrate several Brenton and non-Brenton machines.

Case/Tray Packers

- **BantamPro Series**
Top Load - up to 20 picks per minute
- **BrentonPro Series**
Side Load - under 10 and up to 100 cases per minute
- Over 500 Installations
- Address sustainability issues

Currie by Brenton Conventional Palletizers

- Over 700 Installations
- Superior Quality
- Long Service Life
- Low & High Level Infeeds

Robotics

- Material Handling
- Case Packing
- Palletizing
- Tire Painting
- End-of-Line Integration

Markets Served

- AUTOMOTIVE
- BEVERAGE
- FOOD
- ELECTRICAL
- HEALTH CARE
- HOUSEHOLD PRODUCTS
- MATERIAL HANDLING
- MEDICAL
- PAPER PRODUCTS
- PERSONAL PRODUCTS
- PET PRODUCTS
- PHARMACEUTICAL

Customer Benefits

- GUARANTEED PERFORMANCE CAPABILITY
- ONE POINT OF CONTACT FOR ALL PRODUCT LINES
- PMMI CERTIFIED NATIONAL SERVICE ORGANIZATION
- 24 HOUR, 98.5% AFTERMARKET PARTS FILL RATE
- TOTAL SYSTEM INTEGRATION AT BRENTON FACILITY
- PLANT INSTALLATION, LIMITED RISK WITH SHORTEST PATH TO PRODUCTION
